High stacks help disperse odors as part of a 40-million-dollar outlay for pollution abatement. Complaints are few: The mills*

*directly and indirectly provide 2,300 jobs in the depressed north. Midstream in the Androscoggin River, man-made islets, foreground, channeled log drives in the flush days of virgin forests, when cutters denuded many of the state's mountainsides. Today, however, renewed forestlands cover a remarkable 86 percent of the state.*
